

Spoken Tutorial – Presentation Script

Title: Presentation Script

Module	Artificial Intelligence Essentials – Prompting Skills
Episode	2.2: Advanced Prompting Techniques
Learning Objective	At the end of this tutorial learner will be able to 1. Apply advanced prompting techniques like Chain-of-Thought, output structuring, and iterative prompting to get better AI results.
Approx. Duration	3-4 min
Outline	• Introduction to Advanced Prompting • Understanding Chain-of-Thought (CoT) Prompting • Structuring AI Output for Desired Formats • Practicing Iterative Prompting for Refined Results
Meta Tags	advanced prompting, Chain-of-Thought, CoT, AI, LLM, structured output, iterative prompting, prompt engineering, ChatGPT
Pre-requisite Tutorial	Introduction to Prompting

Script

Visual Cue	Narration
Title slide: 'Advanced Prompting Techniques' with gears and lightbulb icons	Welcome to this Spoken Tutorial on Advanced Prompting Techniques.
Learning objectives slide with bullet points and a checkmark icon	In this tutorial, you will learn to apply advanced prompting techniques.
System requirements slide showing a laptop, tablet, and smartphone with a browser icon	Here I am using a browser on a computer or mobile.
Prerequisites slide with icons for internet connection and a brain thinking	To follow this tutorial, you must be connected to the internet .
Person looking at a complex AI output, then a lightbulb moment, showing advanced techniques	Sometimes, a basic prompt is not enough.
Flowchart diagram showing steps, interconnected thoughts, and a question mark leading to an answer	First, let's look at Chain-of-Thought prompting .
Person typing on a laptop, a thought bubble above the AI chat window showing gears turning	This forces the AI to show its reasoning.
Screenshot of ChatGPT interface with the apple problem prompt typed in the input box	Type this prompt into your AI tool:
Screenshot of ChatGPT output showing the step-by-step calculation for the apple problem	Observe how the AI breaks down the problem.

Blueprint or architectural drawing icon, symbolizing structured design, with different format icons around it	Next, let's learn to structure the AI's output .
Screenshot of ChatGPT interface with the remote work prompt typed, specifying Markdown table	Let's ask for pros and cons of remote work.
Screenshot of ChatGPT output showing a perfectly formatted Markdown table for pros and cons of remote work	The AI will generate a neat Markdown table.
Icons representing different data formats: numbered list, curly braces for JSON , angle brackets for HTML , comma-separated items	You can ask for many other formats.
Two speech bubbles, one with a question, the other with an answer, and then another question, showing a back-and-forth conversation	Finally, let's explore Iterative Prompting .
Person looking at AI output, then typing a follow-up question, showing thought process	You refine your prompts based on the AI's output .
Screenshot of a ChatGPT conversation showing the slogan refinement example, with user and AI turns	You ask: 'Write a slogan for my new coffee shop.'
Summary slide with key concepts highlighted using icons for thought, structure, and conversation	With this, we come to the end of this tutorial.
Assignment slide with a lightbulb and gears icon, suggesting critical thinking and practice	As an assignment, please do the following.
