# Learning Objectives

- Remember to create clear and specific prompts.
- Understand how to add essential context to a prompt.
- Apply output format instructions

# Prerequisites

- Basic understanding of an AI chatbot (Large Language Model).
- Access to an AI chatbot (e.g., ChatGPT, Gemini, Copilot, Llama).

# The Magic Lamp of AI

- AI chatbots are like a 'magic lamp' for information.
- You need to rub the lamp (give a prompt) to get wishes.
- A good wish (prompt) gives a

# Be Clear and Specific

- Vague prompts give vague answers.
- Tell AI exactly what you want.
- Avoid ambiguous words.

# Demo: Clear and Specific Prompt

- See how vague and specific prompts work.
- Observe the difference in AI's response.
