

Spoken Tutorial – Misinformation and Deepfakes

Title: Misinformation and Deepfakes

Module	AI Ethics and Safety
Episode	Understanding AI-Generated Misinformation
Learning Objective	At the end of this tutorial learner will be able to 1. Identify how AI creates fake content. 2. Understand the risks of deepfakes. 3. Apply strategies for source verification.
Approx. Duration	3-4 minutes
Outline	• How AI creates fake content. • Risks associated with deepfakes. • Real-world deepfake examples. • Verifying sources and media literacy.
Meta Tags	AI , Deepfakes, Misinformation, Ethics, Media Literacy, LLM
Pre-requisite Tutorial	Basic understanding of Artificial Intelligence concepts.

Script

Visual Cue	Narration
Title Slide	Welcome to this Spoken Tutorial on Misinformation and Deepfakes.
Learning Objectives Slide	In this tutorial, you will learn to identify how AI creates fake content. Next, you will understand the risks of deepfakes. Finally, you will apply strategies for source verification.
System Requirements Slide	You will need a device with internet access. A web browser is also required.
Pre-requisite Slide	Basic knowledge of AI concepts is helpful. No prior deepfake experience is needed.
AI generating fake content	Can AI create things that are not real? Yes, AI can generate very realistic fake content. It uses complex algorithms for this. This includes images, videos, and audio.
AI learning from data	Think of AI as a skilled artist. It learns from many real examples. Then it creates new, fake versions. These fakes look very convincing.

Fake audio wave	What are the dangers of deepfakes? Deepfake audio can mimic any voice. Criminals can use this for scams. It makes it hard to trust phone calls.
Manipulated video frame	AI can swap faces in videos. It can also alter images easily. This spreads false information fast. It can harm reputations greatly.
Fake news headline	Let's see some real examples. A politician's fake speech went viral. Fake celebrity videos also appeared. These caused much public confusion.
People looking confused	You saw the impact. Now reflect. Deepfakes erode public trust. They can influence elections. This threatens our society greatly.
Checkmark for verified source	How can we fight deepfakes? Always check the source of information. Look for official and trusted channels. Do not believe everything you see.
Person reading news critically	We need strong media literacy skills. Question unusual details in content. Use reverse image searches sometimes. This helps us identify fake content.
Summary Slide	In this tutorial, you learned about deepfakes. We saw how AI creates fake content. We discussed the risks involved. We also explored source verification methods.
Assignment Slide	Find a news article about deepfakes. Identify the type of deepfake discussed. Write two sentences on its potential impact.
EduPyramids logo	This tutorial is brought to you by EduPyramids Educational Services Private Limited. It is also supported by SINE and IIT Bombay. Thank you for joining.
